. 'Software Management > Firmware > select specific firmware' includes short description and firmware release note

. 'Campaign Management > Campaign > New E-FOTA Campaign > Action' includes short description (Tool-tip pops up if cursor is over a certain firmware)

- ✓ New menu on sub. navigation tab for managing device group

1.2 E-FOTA Advanced Client

- ✓ Multi-language support : Spanish is added (available in English, Italian and German)
- ✓ Trust store certificate can be retrieved from configurable path for HHPS connection
(User is allowed to use their own certification, but only for E-FOTA Advanced on-premise solution)
- ✓ Current firmware software version (AP/CSC/CP) is automatically registered in device inventory after a device is enrolled.

Software Vendor	Software Name	Software is Managed	Software Version	Version Status	Last Version Available	SCOMO ID
Samsung	SM-P585Y_XSA	True	P585YDXU1BQK2/P585YXSA1BQK3/P585YDXU1BQH2	Unmanaged		SM-P585Y_XSA_Samsung_Firmware

2. Solved Issues

2.1 E-FOTA Advanced Server

- ✓ Device model name is set by 'Android[google]' when the model name is auto-created
- ✓ Sub. domain is deleted even if devices (or any other entities) belong to the sub. domain
- ✓ Wi-Fi only devices cannot be removed from deleted device list

2.2 E-FOTA Advanced Client

- ✓ Domain and PIN request UI pops up again if it times out the first time
- ✓ Android devices will be able to access the installation mode and reboot even if verification has failed
- ✓ UI no longer pops up asking for domain name and pin alert for device polling
